

The marvel of Bamboo Hardwoods' Bamboo Panels are in their fantastic strength, exotic beauty, and amazing versatility. Bamboo Panels are ideal for anything from countertops to cabinets, whether in the home or office.

Every sheet of Bamboo Hardwoods' Bamboo Panels uses continuous bamboo: there are no breaks or seems across the surface of the panel. Furthermore, the edges of our Bamboo Panels offer a beautiful grain pattern that does not need to be edge-banded, saving you time and money. The unique edge grains are a signature look of Bamboo Hardwoods' Bamboo Panels.

Most Bamboo Panel are available in 4' x 8' sheets in a variety of thicknesses*, including: 1", 3/4", and 1/2". Our Bamboo Panels are unfinished, allowing you the ultimate in customizability.

*Most panels have matching, single-ply veneers. See below.

Specifications

Grain / Color

Horizontal Grain / Blonde

Dimensions

4' wide, 8' long

Available thicknesses: 1", 3/4", or 1/2"

Construction

Cross-laminated with bamboo core

3-ply construction with 100% bamboo veneer

Finish

None

Hardness

Janka Hardness Rating of 1400 - 1600

Environmental

Qualifies for LEED® Credit MR6

--Rapidly Renewable Material

Qualifies for LEED® Credit IEQ 4.3

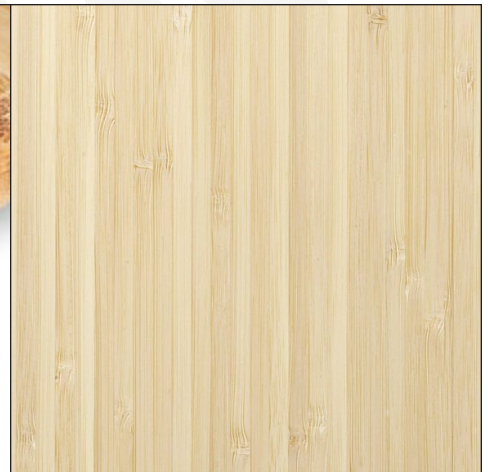

--Low-Emitting Flooring Systems

Warranty

Lifetime warranty against manufacturer defects.
